Distribution:	GLOBAL			
Type of Change:	Product Obsolescence			
Change Description:	Product Discontinuance. Object part numbers are set to end of life, and Halogen Free part numbers are newly set up.			
Reason for Change:	For several years, FCI has enjoyed great market acceptance for SFVL original FPC/FFC connectors. A resin material is changed into Halogen Free in order to respond to a new demand from MKT. Then, the part numbers which used the old material are stopped by this change, and Halogen Free part numbers are newly set up.
