 Plymouth, MN 55441

Date: 8 May 2012

Product Change Notification (PCN) #: 12-03

Title of PCN: Precision Pressure Sensor Label Change – Format & New Honeywell Internal Part Number

Product IDs affected: All Precision Pressure Sensing catalog product configurations including but not limited to: PPT, HPB/A, PPTR/E, and IPT.

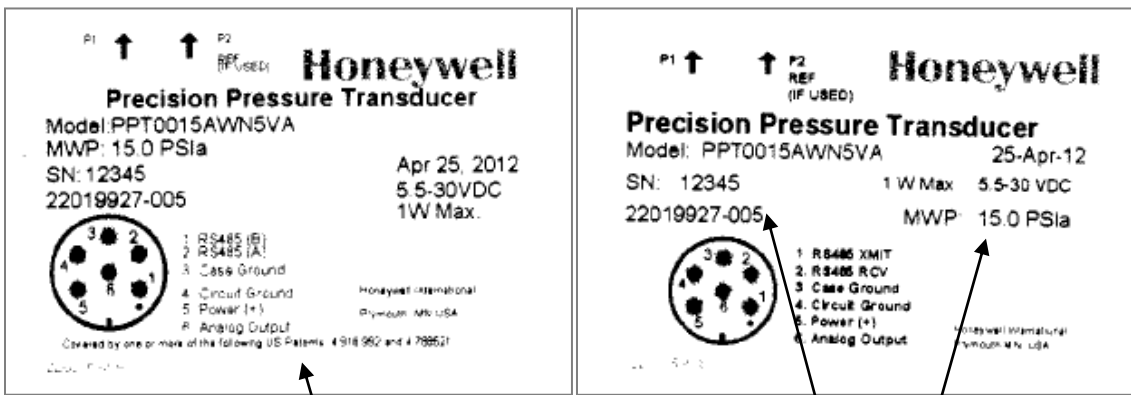

Reason For Change: Standardization of product and product box labels, removal of expired patent information from labels, new internal part number release due to new enterprise resource planning systems. Product Model number will not change; customers will continue to order to the same Catalog Part/Model Number.

Description of Change and Select Examples:

1. Product label change example (PPT products)

Was:

Is Now:

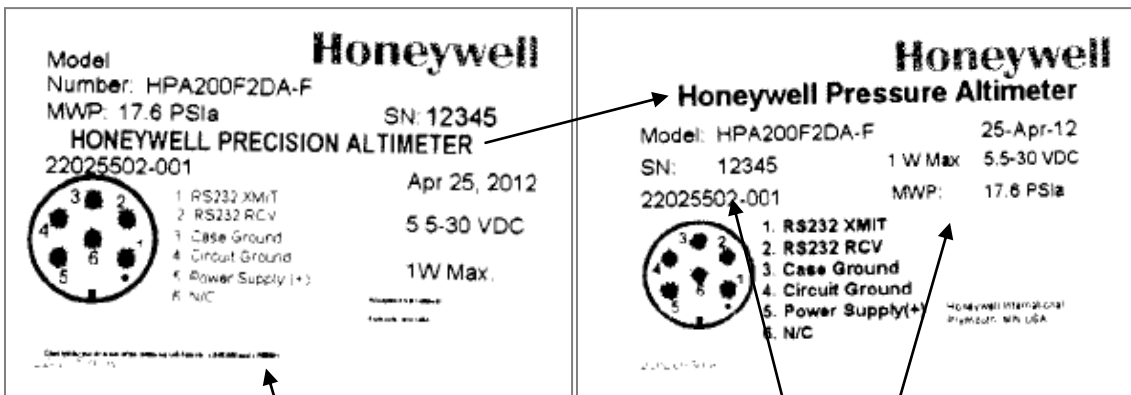

Removal of Patent Information

General Re-Formatting
 New part number format:
 58xxxxxx-xxxx (not shown)

2. Product label change example (HPB/A products)

Was:

Is Now:

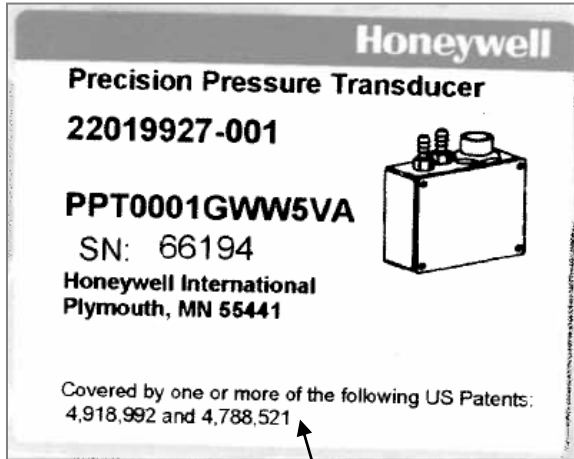

Removal of Patent Information

General Re-Formatting
 New part number format:
 58xxxxxx-xxxx (not shown)

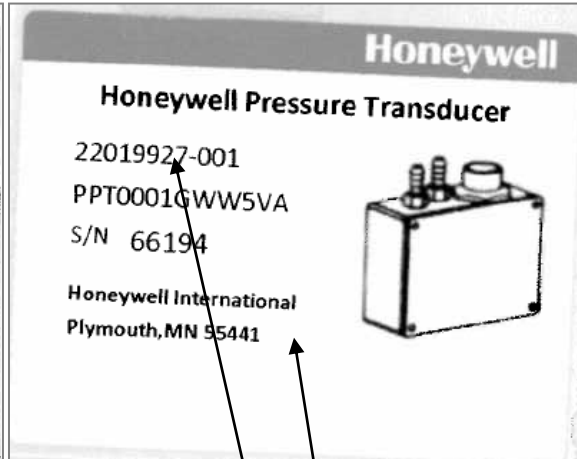

3. Box label change example (All products)

Was:

Removal of Patent Information

Is Now:

General Re-Formatting
New part number format:
58xxxxxx-xxxx (not shown)

Projected timing of change and implementation date:

All Precision Pressure Sensors shipped starting May 2012 will have the new label format. The new 58xxxxxx-xxxx part numbers shown on the label will have a more gradual introduction as they are released internally.

Anticipated impact on Quality and Reliability:

This change has no affect on product quality or reliability.
