

Product Discontinuation

PDN-ION-689-2017

Business Unit	Product Line Code	Type of Change	Action	Date of Issue
ION - I/O and Networks	DNN	Product Discontinuation	Notify Distributors and Field	6/12/2017

Phoenix Contact's factory has announced the following product(s) is going to be discontinued. Existing specifications will be met or exceeded. Technical support of the discontinued product will continue, as required. Please review and acknowledge this document and take the appropriate action with respect to your existing inventory and ordering replacement parts.

Description for Product Discontinuation

Due to the recent discontinuation of components and limited availability of inventory the following products have been discontinued:

- FL WLAN EPA; Order No. 2692791
- FL WLAN EPA 5N; Order No. 2700488
- FL WLAN EPA RSMA; Order No. 2701169

Delivery of remaining inventory is limited

Due to this unknown end of life component, delivery of these three parts are limited. Existing customers should be alerted of the limited inventory and new customers should be shown an alternate option.

Alternative products

FL WLAN 1101 - 2702538

The FL WLAN 1101 is a high-performance alternative to the WLAN EPA modules. This module's form factor and mounting is different than that of the existing product. Please contact your local Phoenix Contact Sales person or Technical Service for more details on the new product.

Alternative:

- FL WLAN 1101 (US-Version); Order No. 2702538
- FL WLAN 1100 (European Version); Order No. 2702534

Future Alternatives

Towards the end of Q3/2017 there will be a new, more form, fit replacement to the existing EPA products. More detail will be available closer to that time frame.

These products will be available until stock reaches 0. At this time the products will no longer be able to be acquired. Please work with your local Phoenix Contact Sales person for existing customers.

Stock Status

Can existing stock still be used?	Yes
Is mixture of stock acceptable?	Yes
