DB-9 Gender Changer

Overview

We have both male and female models to connect mismatched cables and other devices. All 9 pins are wired straight through using Printed Circuit Board construction. Male units are supplied with captive screws and saddle washers. Female units are supplied with hex nuts and saddle washers. Special wiring and hardware configurations available on request.

Features

- Printed circuit-board construction
- All 9 pins are wired straight thru
- Captive screws/saddle washers on one end, hex nuts/locking hardware on the other end
- **Made in the USA** — This Patton equipment is designed by Patton engineers and built in our Gaithersburg, Maryland facility. Patton's American-made manufacturing process delivers high-quality networking solutions with reliability you can trust.
