

1ft Cat6A Ultra Slim Patch Cable (Blue) E09-001BL

Professional Series - 10 Gigabit/Sec Network/High Speed Internet Cable, 550MHZ, 24AWG

The CAT6A patch cable is ideal for use in a performance demanding high speed network or where future-proofing is desired. Our CAT6A ethernet cables are fully backward compatible with CAT5E and CAT6 networks. HIGH QUALITY 100% COPPER: patch cables are made of 100% pure copper wire with 50 micron gold plated RJ45 plugs. Our cables use high quality, long-lasting materials and feature a highly durable design at an affordable price.

With speeds of up to 10 Gbps, our high bandwidth 550 MHZ CAT6A ethernet cables provide a high-speed, fast data transfer for server applications, cloud storage, video chatting, online video streaming, gaming and more.

MAXIMUM COMPATIBILITY: Meets or exceeds Category 6A performance in compliance with the TIA/EIA* T-568B standard wiring. UL/cUL Listed. RoHS.

Available in lengths: 1ft, 3ft, 7ft, 10ft, 14ft, 25ft, 50ft, 100ft

Snagless boots for simplified moves, adds, and changes

50u" gold plated contacts for accurate data transfer and maximum corrosion resistance

Backwards compatible with all CAT-5, CAT-5e, and CAT-6 applications

Lifetime Warranty

without us, you are just not connected!
