## TE Connectivity

Product Change Notification: P-15-012243

PCN Date: 11-NOV-15

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

**General Product Description:**

AMPMODU System 50 Right Angle Receptacle Assembly

**Description of Changes**

THIS IS A FORM CHANGE ONLY. THERE IS NO IMPACT TO THE FIT OR THE FUNCTION OF THE PART. The latching windows on the top and bottom of part were removed when the housing mold was retooled. This product was released in 1986. In 1995 there was a change to the contact retention design that made these windows obsolete. The windows remained in the part because the tooling for the housing was not updated until this past year. The function of the part has not changed since 1995. To save on tooling costs the windows were removed when we retooled the molds this past year. Again this change has no impact on the part and it will function as it has since the last change that was made 20 years ago.

**Reason for Changes:**

Product improvement.
