SKU: OKY3431-1

Name:OKYSTAR OEM/ODM Volume Control Adjustable Potentiometer Module Intelligent Home Furnishing With 3PIN Line

Description:

By Rotating The Rotary Encoder Can Be Counted In The Positive Direction And The Reverse Direction During Rotation Of The Output Pulse Frequency, Unlike Rotary Potentiometer Counter, Which Species Rotation Counts Are Not Limited. With The Buttons On The Rotary Encoder Can Be Reset To Its Initial State

Specification:

1. PCB Color:Red
2. Material:Metal
3. Weight:8g
4. Insulation resistance: $\geq 10(M\Omega)$
5. double alpha:0.75
6. Application:Computer
7. Lead time:Rich stock

Package Including:

1PC*Adjustable Potentiometer Module
