TE Connectivity

Product Change Notification: E-16-008358

PCN Date: 13-JUN-16

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
PTL Header Assembly 1969688

Description of Changes
Minor contour change in the retention lance that engages the PC Board. This change is considered by TE Connectivity as a form change. There will also be a Manufacturing location change. These Part Numbers will be transferred from the current TE Connectivity manufacturing location in the A/P region to another TE Connectivity manufacturing location in the A/P region. The transfer is executed by following a strict transfer procedure, which guarantees no negative influence on quality, ability to supply and form-fit-function of the concerned products. The new manufacturing location is under a certified quality management system according to standard industry requirements. An internal release based on our specifications will be executed before any parts will be delivered, which guarantees the performance.

Reason for Changes:
Product Improvement. Facilitate production of Standard Temp Headers that will be introduced.
