Ruland KS40-5/16X18-PF, Star Knob, 40mm Knob Diameter, 5/16x18 tapped hole, Plastic Knob, Zinc Plated Steel Insert

## **Description**

Ruland KS40-5/16X18-PF is a star knob with a 40 mm knob diameter, and 5/16x18 tapped hole. This star knob is used to quickly adjust conveyor guide rails, screens, sensors, and other industrial components without tools. It mates to hardware with 5/16x18 threading. The knob is made of shock-resistant technopolymer plastic with a matte black finish and the insert is made from zinc plated steel. This combination makes them a good fit for most industrial applications. The grooves of the star-shaped knob offer an ergonomical grip, making it easy to tighten and loosen as needed. It is ideal for confined spaces due to it's small dimensions and tool-free operation. KS40-5/16X18-PF is manufactured by Otto Ganter, inventoried by Ruland, and RoHS3 compliant.
