DESCRIPTION AND PURPOSE OF TERMINATION:

The design of these new terminals have been improved in order to be suitable with most of the crimping tool on the market. Moreover, one additional terminal for male and female has been created to cover more accurately all the gauges from 16 to 28.

The former design will remain available till stock is empty and will at the latest not be available anymore after the 15th of October 2011. (Last order 15/10, last delivery 15/12)
