

Product Change Notification

TE Connectivity

Product Change Notification: P-18-015863

PCN Date: 24-MAY-18

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

D369

Description of Changes

On September 22nd 2017, TE notified our customers our D369 product has gaps in performance vs our internal / published specification (related to Altitude Immersion and Humidity). After a very intense and thorough study, TE has determined most demand for the product is for environments / applications that do not require Altitude Immersion and Humidity performance. As a result, we will officially reduce the Altitude Immersion level from the product spec to RTCA DO160 category A4 and IP65 rating and Humidity level to RTCA DO160 category A, targeting in-cabin applications. We will also release a new version of D369 targeted for harsh environments which will meet the EN2591-314 for Altitude Immersion and the EN2591-321 / EIA-364-31 Method IV for Humidity. This product will be released later this year and will have new part numbers and coloring that will clearly differentiate it from current product offering (see PDF in attachment).

Other attachments:

[D369 Attachment to PCN](#)

[D369 Catalog 05-2018](#)

Reason for Changes:

New specification. Updated specification for existing version of our D369 connector. This is only a functional change to RTCA DO160. Fit and form remain the same and intermateable with existing products.

Estimated Dates:

Last Order Date (Obsolete Parts Only): **First Date To Ship** (Changed Parts Only):

24-AUG-2018

Last Ship Date (Obsolete Parts Only): **Last Date for Mixed Shipments:** (Changed Parts Only):

No Mixed Shipments
