

CYTK58 TrueTouch® Evaluation Kit

Last Updated: Apr 23, 2014

The CYTK58 TrueTouch® Evaluation Kit (EVK) is based on the Gen5 family of capacitive Multi-Touch All-Points touchscreen controllers. The TrueTouch® TK58 is able to support ten-finger tracking on touchscreens up to 8.3 inches and is optimized for performance: high signal-to-noise ratio (SNR), best-in-class charger noise immunity, fast refresh rates, low power, and industry-best waterproofing. The TK58 EVK is an excellent platform for developing tablet devices and other large form factors.

CYTK58 EVK Contents:

- TrueTouch® evaluation kit with 8.3” touch panel enclosed in plastic casing
- Micro-USB cable
- USB drive with documentation, TrueTouch® Host Emulator, and design files
