PCN (Product Change Notification) reference: **2020/12**

Subject: **Change of raw material for component part of Knowles Johanson trimmer PN 5242**

Dear Customer,

This notification letter is to advise you of a change in raw material for one of the metal tubes used in the construction of part number 5242. The original material was copper, this is to be replaced on all open and future orders with one fabricated from non-magnetic brass.

The reason for the change is that our outside vendor has chosen, with immediate effect, to withdraw from the market. We have been unable to find an alternate source and have not been offered an opportunity to place a last time buy.

There is no change to datasheet specifications.

If you require further information, please contact the Trimmers and Non-Magnetic Product Manager, Matt Ellis email matt.ellis@knowles.com .

Yours sincerely,

Matt Ellis
Product Manager, Trimmers and Non-Magnetic Products

PCN Details

PCN reference: 2020/12

PCN Issue Date: 17/September/2020

Product: Johanson 5242.

Change Description: Change to raw material of subcomponent P4185-1B.

Reasons for Change: Existing component no longer available .

Changes to Form,
Fit or Function: No change to component form, fit or function.

Changes to Quality
or Reliability: None.

Changes to Johanson
Part Numbers: None.

Proposed First Ship
Date: All open and forward orders.

Qualification
Results: None Available.

Are Samples
Available? Available on request.
