

## Global Change Notification (GCN)

Product Family	MX150,GFI, MX064 seal, GPCM, HDAC	10705002	
		GCN Number	
Series	34745,34746,etc.	August 11, 2015	
		Date Issued	
Reason For Change	Outsourcing Component Or Subcomponent		
Change Description	The purpose of this letter is to inform you that Molex will start to outsource several molding low risk components that go into the assemblies of parts that your company purchases. The reason of the change is the forecasted growth of many of the Molex standard products. This change will be helpful to the supplement of potential molding press shortages, and help to minimize supply disruption. No changes to raw materials and quality standards are planned. Vendors will be required to PPAP these components to Molex. Current molds will transfer to our approved suppliers after appropriate safety stock is produced. Molex reserves the right to move the Tooling back in house as required.		
Part Numbers Affected	Please refer to CustomerPartList.csv attached to e-n	nail message.	
Reason For Short Notice Exception	New Capacity		
Assessment Of Change (How Product Will Be Qualified & Validated)	CT scan and PV test		
Internal Molex Qualification Date (Planned Date Information Available)	January 20, 2016		
Sample Availability Date (Changed Part)	December 15, 2015		
Date of Implementation	January 25, 2016		
Method of Identifying Change	Label and Cavity#		
Recommended Replacement Parts			
Last Time Buy Date for Obsolete Parts			
Last Time Ship Date for Obsolete Parts
