NOTIFICATION TYPE:

Customers must notify ON Semiconductor (<quality@onsemi.com>) in writing within 90 days of receipt of this notification. ON Semiconductor and the customer will negotiate an appropriate End-of-Life.

DESCRIPTION AND PURPOSE:

ON Semiconductor has been informed by Plessey Semiconductors, our wafer foundry vendor for the listed product(s) in this notification, that they no longer offer wafer foundry services to ON Semiconductor or any other external customers.

The discontinued support is related to a change of focus of the business of Plessey Semiconductors, and is not an event within ON Semiconductor's control. Their business model is changing such that their full FAB capacity is needed to support internal Plessey Semiconductors Products. Despite several discussions between the management team of ON Semiconductor and Plessey Semiconductors this decision is final. As we value our business relationship we would like to work with you to find a suitable solution for our mutual business on short, mid and long term. Although we realize the importance of the long term availability of our products, we see currently no other option than to offer a last time buy (LTB) opportunity for the products.
