

450S - TweezerNose™ Pliers - Serrated

Product Description

Very fine, precise "tweezer" like tips will handle the most delicate parts but are strong enough for forming and bending operations.

Plier blades are serrated for extra holding power.

Key Features

- Precision for intricate work and the strength for forming and bending wire
- 1.5mm thick tip can grasp wire less than 1mil thick
- Jaws with fine, perpendicular serrations for extra holding power and rounded edges to help protect lead wires
- Return spring to facilitate repetitive operations
- Rubber handle grips provide user comfort
- Made in the USA
