

Final notice: Illuminated switches in HW, TW & TWND series now with new lenses and LEDs

Dear Valued Partner,

As previously stated, as of September 1, 2020, all lens and LED changes have been completed for HW, TW and TWND illuminated pushbuttons, pilot lights and illuminated selector switches. Moving forward, new switch orders will be built with the new lenses and LEDs. Of note:

1. Assembled switch part numbers and pricing remain unchanged.
2. New lenses have been assigned new part numbers and are backwards compatible.
3. New LEDs are only offered in white, replacing older, colored LEDs.
4. It is recommended to use the new lenses along with the new white LEDs to achieve consistent color rendering.
5. Old models of lenses and LEDs are available for purchase while quantities last.
6. The standard IDEC return policy is applied to HW, TW and TWND switches built with older lenses.

[Click here](#) to download the lens and LED cross-reference chart.

Please contact IDEC Product Support (support@idec.com) for any technical questions.
